

Program Outcomes

BACHELOR OF PHYSIOTHERAPY

Program Outcomes

After successful completion of the program, an individual will be able to:

- **PO1:** Graduates will adopt physical therapy knowledge using theoretical and practical education with consideration of patients in clinical practice.
- **PO2:** Ability to exhibit conceptual and applied knowledge on assessment planning, implementation in physiotherapy practice required for rehabilitation programs of patients.
- **PO3:** Graduates learn morals, ethics, principles and values that out to guide the professional laws and rules.
- **PO4:** Ability to explore new ideas and should use the knowledge to collect and analyze the data correctly to complete research projects.
- **PO5:** The graduate will signify the impact of physiotherapy on the society.
- **PO6:** Develop educational experience for professional skill and promote preventive and rehabilitative aspects of healthy life.

Program Outcomes

MASTERS OF PHYSIOTHERAPY

Program Outcomes

After successful completion of the program, an individual will be able to:

- **PO 1-** Ability to adopt physical therapy knowledge using theoretical and practical education with consideration of patients in clinical practice.
- **PO 2-** Develop professional skills in diagnosing different disorders and diseases by assessing, planning and rehabilitating patient and follow up evaluation.
- **PO 3-** Apply professional principle, ethics and responsibilities in clinical practice.
- **PO 4-** collects and analyzes data for research purposes and its documentation for lifelong professional learning
- **PO 5-** Develop educational experience for professional skill and promote preventive and rehabilitative aspects of healthy life.

Program Outcomes

BACHELOR OF COMPUTER APPLICATION

Program Outcomes

BCA program has been designed to prepare graduates for attaining the following specific outcomes:

PO1: An ability to apply knowledge of mathematics, computer science and management in practice.

PO2: An ability to enhance not only comprehensive understanding of the theory but its application too in diverse field.

PO3: The program prepares the young professional for a range of computer applications, computer organization, techniques of Computer Networking, Software Engineering, Web development, Database management and Advance Java

PO4: An ability to design a computing system to meet desired needs within realistic constraints such as safety, security and applicability in multidisciplinary teams with positive attitude.

PO5: An ability to communicate effectively.

PO6: In order to enhance programming skills of the young IT professionals, the program has introduced the concept of project development in each language/technology learnt during semester.

PROGRAM OUTCOME

B.Sc. Biotechnology (Hons.)

- ❖ PO1: The students shall have the ability to apply fundamental knowledge of Biotechnology, biological processes, and the scientific method to solve problems in Biotechnology.
- ❖ PO2: The students shall have the ability to integrate biological knowledge and concepts with the ethical and industrial perspectives of biotechnology and allied life sciences.
- ❖ PO3: The students shall have the ability to work in groups or individually to develop written and oral presentations skills for effective communication of scientific & biological concepts.

Program Outcomes

M.Sc. Biotechnology

- ❖ PO1: The students shall have the ability to apply fundamental knowledge of Biotechnology, biological processes, and the scientific method to solve problems in Biotechnology and related research.
- ❖ PO2: The students shall have the ability to integrate biological knowledge and concepts with the ethical and industrial perspectives of biotechnology and allied life sciences.
- ❖ PO3: The students shall have the ability to work in groups or individually to develop written and oral presentations skills for effective communication of scientific & biological concepts.
- ❖ PO4: The Students are expected to engage in independent and lifelong learning in the context of biotechnological advancements.
- ❖ PO5: The Students shall have the ability to apply major quantitative and computational skills and tools to solve problems in the biotechnology industry.

Program Outcomes

BACHELOR OF BUSINESS ADMINISTRATION

Program Outcomes

BBA program has been designed to prepare graduates for attaining the following specific outcomes:

PO1: To provide an adequate basic understanding of Management Education among the students.

PO2: To prepare students to exploit opportunities being newly created in the management profession

PO3: To train the students in communication skills effectively

PO4: To develop appropriate skills in the students so as to make them competent and provide themselves with self-employment.

PO5: To inculcate entrepreneurial skills.

PO6: To understand finance and other core business content.

PO7: To recognize and solve business problems in an ethical manner.

PO8: To stimulate in students an interest in research and initiate them into research methodologies
