

PHYSIOTHERAPY

VISION

To create a better future for all, through leadership in research and excellence in Professional education in the field of Engineering, Management, Health Sciences, Information Technology, Education & Law with focus on developing relevant skills, competence and attitude to meet the needs of the society and the industry in the 21st century. It will attain this by inculcating an enlightened, challenging and collaborative academic environment that instills excellence, encourages innovative education and supports path-breaking discovery. Also to enable the Group play the role of a beacon light center in the corporate world.

MISSION

To serve the mankind and improve the quality of life of people by creating successful professionals, leaders, winners, and achievers in the field of management. To fuel economic growth, create systemic changes, and sustainable improvements by developing new generation social entrepreneurs. And also to foster an ethical environment founded on human values in which both spirit and skill thrives to enrich the quality of life.

ABOUT IAMR

IAMR Group began as an educational institute in the early 2000s, revamping traditional educational techniques and focusing on innovation. It sent shockwaves through the educational sector, allowing IAMR Group to position itself as one of the industry's leaders. The organization is now a multi-faculty educational cluster that offers a wide range of courses, including engineering, management, health sciences, information technology, education, and law, to name a few. IAMR Group's vision and commitment to educational quality can be seen in the Institute of Applied Medicine and Research, Institute of Advanced Management and Research, Institute of Technology and Management, IAMR B.ED College, and IAMR Law College. IAMR Group's stated goal is to integrate education with entrepreneurship.
